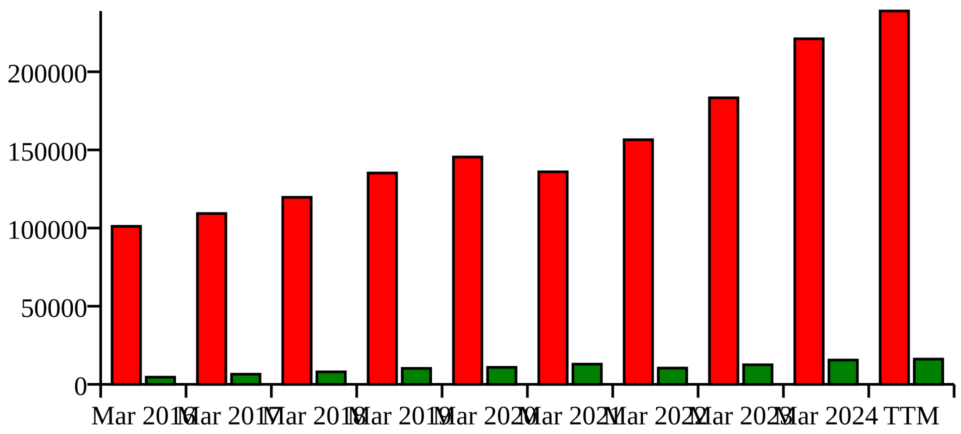
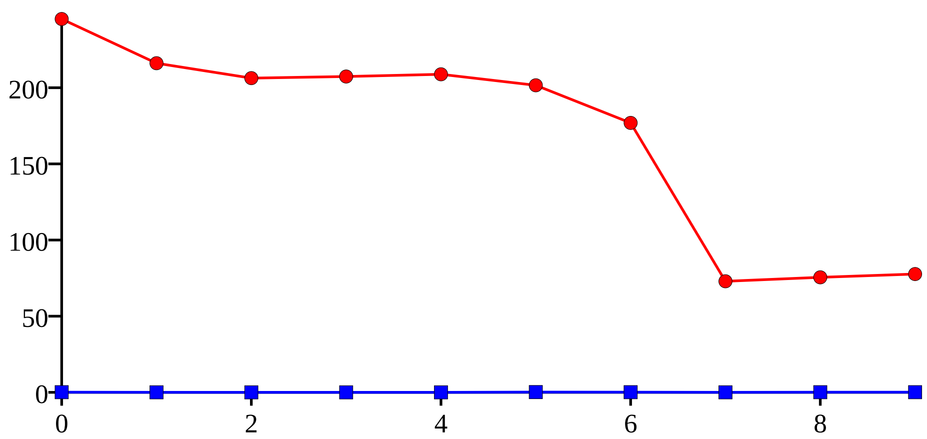
Revenue vs Net Profit (10 Years)



ROE vs Debt-to-Equity



Pros

- Consistently high return on equity above 20% demonstrates exceptional capital efficiency.
- Positive free cash flow supports sustainable shareholder distributions.
- Return on equity improving for three consecutive years shows strengthening business quality.
- Revenue growth outpacing profit growth indicates improving operating leverage potential.

Cons

- Operating margins declining for three consecutive years suggest pricing or cost pressure.
- Borrowings have increased for three consecutive years, indicating rising leverage.
